LED BY

Okenna Paschallyn

EAM expert with 6 years in SAP. Okenna teaches every PM session, backed by LWN founder NDZ Anthony and the LWN teaching team.

Better skills. Bigger opportunities.

WHO IT'S FOR

Start where you are. Finish a super user.

NEW TO SAP

Beginner → super user

Technicians, engineering graduates and new hires moving into maintenance roles.

ALREADY USING SAP PM

End user → super user

Planners and supervisors ready to troubleshoot, guide colleagues and own the maintenance process.

CURRICULUM

6 weeks · 12 live sessions

WK 01	Getting around SAP & the PM structure
WK 02	Technical objects: functional locations & equipment
WK 03	Notifications & corrective maintenance
WK 04	Work orders: planning, confirmation & completion
WK 05	Preventive maintenance plans & task lists
WK 06	End-to-end scenario & super-user skills

BY WEEK 6

What you'll be able to do

Run the maintenance cycle

From notification to closed work order, without help.

Fix the usual errors

Status issues, missing confirmations and wrong technical objects.

Support your team

Write job aids and guide colleagues as the go-to super user.

WHAT'S INCLUDED

- Live small-group classes, Mondays & Thursdays
- 2 months' access to a real SAP system
- Recordings of every session
- Super-user toolkit & job aids
- Tutor support between classes
- LWN certificate of completion

YOUR INSTRUCTOR

OP

Okenna Paschallyn
EAM expert with 6 years in SAP.
